

Cogne Acciai Speciali Group

Concrinox[®]

Stainless steel rebars for construction

Concrinox®

Built to last!

Stainless steel reinforcement is known all over the world because of its superior performance. Produced by Cogne Acciai Speciali, Concrinox performance is characterized by:

- High corrosion resistance and durability
- Superior ductility and energy absorption in seismic situations
- Low magnetic permeability
- Superior cryogenic performance.
- High strength at elevated temperatures and excellent fire resistance
- Outstanding machineability
- Easy welding
