RE: REACH Regulation (1907/06).

Dear Customer,

Regulation (EC) 1907/06 - known as REACH (Registration, Evaluation and Authorization of Chemicals)- lays down the rules for the management of chemical substances and requires constant exchanges of information between customers and suppliers.

We inform you that Cogne Acciai Speciali s.p.a ensures the proper fulfillment of the obligations imposed by the E.U. Legislation both as an importer and as a supplier.

The interpretation of REACH and ECHA guidelines especially define our products as:

- Articles, therefore not subject to the registration of substances constituents
- metal alloys (mixtures), therefore subject to the redaction of MSDS

We also report that none of the SVHC (Substance of Very High Concern) listed and introduced by the Regulations, (Including UE2020/2081 – UE2020/2096 – UE2020/2160 – UE2021/57), or amendments, to Annex XVII of REACH is present in our products. In particular, it should be noted that none of the SVHC substances are present in our products in concentrations equal to or greater than 0.1% by weight for the purposes of the SCIP notification (EU Directive 2018/851).

Candidate substances for final inclusion in Annex XIV are not present in our products in concentrations equal to or greater than 0.1% by weight.

Be aware that Cogne Acciai Speciali s.p.a. located in Aosta, has preventively registered Iron, Chromium, Nickel and Molybdenum in the event of any imports from extra-EU countries.

COGNE ACCIAI SPECIALI S.p.a.

Our constant commitment to comply with the applicable regulations will allow you to keep on getting supplies problem free from our Company and from Cogne's sales network, in compliance with REACH Regulations.

Finally, we assure you that we will keep you informed of any upcoming requirements imposed by the regulation in order to ensure compliance with the requirements and the involvement of downstream users of our products.

If you have any requests for clarifications please contact:
